

Protecting your privacy is a top priority.

In light of a recent increase in scam activity, it is important for you to know that our customer service representatives will not provide any personal information - including your account number or the special ID number known as a "POD ID" - over the phone or via email. Also, PSE&G employees will never approach you in person, or call you to request your personal information.

We encourage you at all times to be on guard against scammers asking for your PSE&G billing information, both on the phone and if you are approached in person. Working together, we can better secure your account information. For more information about scams, visit pseg.com/scamalert

Thank you for the opportunity to serve you.
